12% FLAME RETARDANT

Nylon flame retardant
resistant fabric

REFLECTIVE TAPE

Silver reflective tape for
increased visibility

An arc flash is a type of electrical explosion or discharge, the light and heat produced as part of an arc fault, that results from a connection through air to ground or another voltage phase in an electrical system.

The primary function of the Arc Tech suit is to provide the wearer with critical protection from these electrical discharges.

A man is shown from the side, working on a rustic wooden wall. He is wearing a grey short-sleeved shirt with 'JCB' printed on the sleeve and a black glove with a yellow 'JCB' logo. The background is a weathered wooden structure.

SHIRTS

Our performance shirts are specially designed to keep you cool and comfortable throughout the day. JCB performance shirts use moisture-wicking material and are manufactured with an anti-bacterial finish for unbeatable freshness and double-needle stitching for increased durability. Dual-branding options are available. Out do, out work, out perform with JCB performance shirts.
